Re. Post-Doctoral Research Fellow – Econometrics of Education

Dear Monash University Faculty of Education representative,

My name is Sergey Alexeev and I am a recent graduate from the PhD in Economics program at the University of Technology Sydney (UTS). I write this letter to apply for the Post-Doctoral Research Fellow opportunity within the Faculty of Education at Monash University, and, in what follows, I hope to convince you that my research skills and interests, teaching abilities, and general life experience have shaped me as an ideal candidate for your opening.

As a father of two beautiful boys, I am a patient and passionate teacher. I have been teaching since 2013 to students of diverse backgrounds. My experience comes from three different countries and various subjects. My current teaching evaluation at UTS as a tutor is 4.55 out of 5.0. Some of my teaching success is due to my YouTube channel, which supplements my tutorials.

I am an Applied Econometrician and Microeconomist. Thematically, I gravitate towards the Economics of Education. I believe that my research matters. This mindset makes me a productive researcher. From 2017 to 2019, I have produced three research papers which are currently under review. One of the papers recently received "revise and resubmit" status in an A level economic journal.

I take pride in my eclectic background that includes academic training from European, North American and Australian universities, as well as both the public and private sectors, and military experience. My background has taught me the importance of contributing to the lives of the people around me and how to do it as a team player or on my own.

I am excited by this Post-Doctoral opportunity, and the contribution I could make to Monash University. Please do not hesitate to contact me if you have any queries or require further information.

Yours sincerely,

Sergey Alexeev
